TOUR

Our tour will focus on the Byron Station Training Building where there is an exact duplicate of the Unit 1 Main Control Room. This simulator is used by both the Initial License Training class of future control room operators and existing operators for remedial and update training on a regular basis. The simulator provides personnel with "real-life" training of actual conditions in the control room and dealing with emergent issues as they occur. The role of engineers at Byron Station and their job duties and responsibilities will be discussed during the presentation portion of the tour.

SPEAKER

Robert Kartheiser is the Communications Manager at the Byron Generating Station. He has been at Byron Station for seven years, is a native of Chicago and a graduate of Northern Illinois University. Other senior engineering managers will be present to answer questions as well.

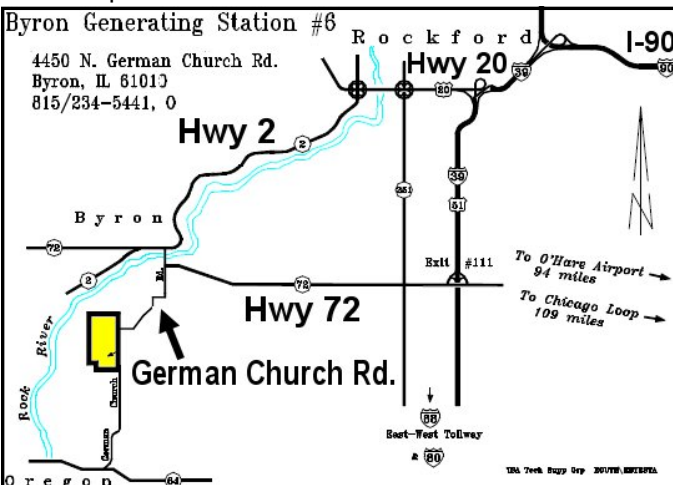

MEAL INFORMATION

Dinner will feature a buffet consisting of roast turkey

and vegetable lasagna entrees, rolls, salad, vegetables, potatoes and dessert. The costs are: member and student non-members: \$7, non-member: \$14, and student members: \$5.
